NUT TREE NURSERIES

JOHN W. HERSHEY, Owner
Downingtown, Pa.

This Nursery is National Headquarters for
Information on Scientific Tree Crop Culture—
The salvation of our hills.

Get Rich without plowing. Grow crops on shade trees.
"Plant until you're Planted"

**WE DON'T GROW TREES TO SELL
WE SELL TREES TO GROW**

Tree Six Summers "Growing", in Elwood Miller's 4 Acre Orchard at Hazelton, Pa. Literally Breaking Down with Nuts.

His whole planting shows I've been right in championing the select seedling for—low cost trees—sturdy hardy trees—early bearing trees of superior quality nuts.

It's such performance as these that makes you plant too. Well your showing good sense. Keep going.

$$\frac{\text{Idle People}}{\text{Idle Acres}} + \frac{\text{Idle Money}}{\text{Tree Crops}} = \text{Prosperity}$$

NOTE—LOCATION—4 miles Northwest of Downingtown at Guthrieville on U.S. Route 322 (the Horseshoe Pike.) Turn north at stone school house $\frac{1}{4}$ mile past Guthrieville, second place on left. Coming from the West turn left second road past the old Manor Church. From super highway, get off at Downingtown, follow signs to Eagle, turn left at hotel, continue about $6\frac{1}{2}$ miles, see young nut grove on left, turn in, first farm on right. NO SUNDAY BUSINESS.

NOTE—Take time to read this page and the next before ordering. It'll save you disappointment when trees are not what you expected.

NOTICE—We're taking over Sunny Ridge. To Sunny Ridge customers I say: We'll be glad to continue to serve you even better (if we can) than Sunny Ridge did. A sad note enters here in that—another life saving unit has dissolved in Welfareism, meaning no young fellow had guts enough to buy him out and dive into insecurity with liberty. Let us continue to serve you. Thanks for your many good wishes.

Can a farmer continue if he only conserved his cows, chickens and seed? Conservation is negative.

Nature is positive—a creator and re-creator—producer and reproducer. “Plant a Tree or a State Full.” Make your slogan “BETTER THINGS FOR BETTER LIVING THRU LIVING THINGS.” Let's go America.

To you who plant a tree or a “state full” to help a prostrate continent reclaim it's lost horizons— I say “thanks”.

THE HERSHEY WAY. This folks is the starting at the beginning of—growing our trees in proper soil, organically managed. Then selection of seed for understock and scions to graft with.

Take advantage of quick production by setting our large healthy trees organically grown. It'll help you get rich without plowing. Here, on America's #1 Tree Crop farm, we find 8-10 ft. trees 5 yrs. ahead of small trees in 3 yrs.

Organically grown—There's no stuttering and no alternative. (For the Best You Must Plant The Best). Organically grown trees proved their worth as never before in droughts. Few die for customers.

NEXT STEP—We cut the tops—the branches—in short “the brush” off them to balance with the roots sheared off in digging, to give them a chance to start for you. Then dip in a costly wax to keep them from drying out until started.

All these things—plus our quarter century of experience in progeny testing makes just one place to buy better nut trees. That's here.

PLEASE NOTE: That crook in the stem of the tree is the "Hall Mark" of quality. If it isn't there, your tree isn't grafted.

BOOKLET: "How To Get Rich Without Plowing!" Don't miss sending for it—the latest in description and cultural data, 25¢.

TERMS

Prices subject to change without notice.

We like cash with order except where special terms are arranged or from old customers with good credit.

All prices f.o.b. Nursery. Orders up to \$5.00 of small size stock can be mailed—add 13% for all orders to be prepaid. 20% West of Miss. Minimum prepaid cost for express \$1.60.

Express, delivers in half the time—few losses, no squawks on claims. Freight is best for heavy shipments.

Our responsibility for transportation ceases when shipment has been delivered to the hands of the carrier (or transportation agency).

No order where an affidavit must accompany invoice will be considered for less than \$10.00.

Six of one variety sold at the dozen rate.

All trees cut back and waxed dipped.

PLEASE NOTE: If you have some ground you would like to put to use—don't know what to plant, come and talk it over. I'll help you. Make an appointment if possible.

PLANTING SUGGESTIONS—Walnut-Chestnuts

I suggest you start out with a planting of walnut 60 x 60 feet, this makes 12 per acre. Then set a chestnut between each walnut on the row making 12 chestnuts per acre. This gives you a nice balance in space and soil use for the walnut is tall and deep rooted and the chestnut is more shallow rooted with a lower head. Plus a 60 ft. middle for farming.

NOTE: We had a bad graft failure this year hence no small stock.

Grafted Black Walnut

Bears 3 to 5 yrs.

Juglans Nigra

The Commercial Tree of the North

The thin-shelled grafted varieties. The commercial nut tree and a good partner for the Chestnut.

Thomas, the leader and all around nut.

Elmer Meyers, the more I see of this nut the better I like it. So's my customers. For those who like the Stabler, this will take it's place—is as thin-shelled, better bearer, better kernel.

Ohio, most ornamental foliage. Best bearer with poor care.

Cornell, (my introduction) a new northern selection of Thomas seedling. Cornell says Cornell matures its nuts at Ithaca in cool summers when native trees fail. Cracks as well as the Thomas. Try them especially in the north.

	Each	Dozen
4—5 ft.....	\$3.00	\$30.00

10—12 ft. extra heavy.....	5.25	

Black Walnut Seedlings. A Wm. Penn Tree Selection

Bears 5 to 7 years

(My Introduction—My Selection)

J. Nigra

For large commercial plantings where machines will crack them, these are the trees to plant if you can't afford a grafted tree.

Remember these are not in the "just seedlings" class. Fast growers—nut nearly as good as Thomas. Customers say so.

We don't grow many of these. Please place your order soon if ordering in hundred lots to insure size you wish.

	Each	Dozen
3— 4 ft.....	\$.85	\$ 8.50

8—10 ft. heavy.....	6.00	60.00

Write for Hundred Rates.

Cut Leaf. *Juglans Nigra Laciniata*. Keystone Variety.

This rare and odd fern leafed Black Walnut is indeed something. The nut shows promise of being a real oddity also. Prices same as English listed above. In each price only.

Paw Paws (*Asimina Triloba*)

Am pleased to offer seedling at the following prices. Don't have many roots but will grow with care.

	Each	Dozen
2—3 feet.....	\$.50	\$ 5.00
3—4 feet.....	1.00	10.00

Filberts (*Corylus Avelana*)

(plant two for pollination)

Bears 3 to 5 years—18 feet height

Barcellona, Pollenator, Davianna, DuChilly, do extra well in moist soils but grows anywhere.

	Each	Dozen
3—4 feet.....	\$1.75	\$17.50
4—5 feet.....	2.00	20.00
5—6 feet.....	2.50	25.00

Nonpareil—A new and interesting good sized nut.

	Each
2—3 ft.....	\$2.00

Cut Leaf—Just an odd foliage, nut very small, good bearer.

	Each
2—3 ft.....	\$2.00

Hybrid Filberts (*C. Mildredii*)

Plant two for Pollenation.

Our observation of the hybrids has been, surer bearers.
First prize winner at the famous Penna. Farm Show 1952.

➤ **Bixby, Buchanan, several numbered varieties.**

Buchanan supply limited, in 5-6 ft. only.

Will substitute smaller numbered varieties when gone.

	Each
3—4 ft.....	\$2.50
4—5 ft.....	2.75
5—6 ft.....	3.00

➤ **American Hazels (*C. Americana*)**

Better bearers than others but nuts are smaller.

Plant two for Pollenation.

➤ **Rush**, a fine selection of Penna. hazels.

➤ **Winkler**, excellent from Iowa.

➤ **Ky.**, a thin shelled small nut that has never failed to load yearly in my frost pocket in Downingtown where neither the hybrids or filberts bore.

	Each
1—3 ft.....	\$2.00

➤ **Tree Hazel—*Corylus Corlurna*:**

This interesting tree hazel I'm offering just to round out a list for tree lovers. Extremely ornamental, growing to 100 ft. if you live long enough. Nut small, slow to bear south of N.Y. but it's real value lies in it's beauty.

	Each
3—4 ft.....	\$2.50

➤ **Chestnuts (Chinese) *Castanea Mollissima***

Sweet, delicious, Blight resistant.

Will not thrive on damp or heavy soils.

Set 40 x 40 feet for orchard, 28 per acre.

Plant two for pollenation. Bears 3-5 years.

These are the finest, heavy calipered largest sized quality trees offered in America.

A sprinkling of nuts cover the block.

They come so nearly true from seed, we recommend the planting of seedlings for home and commercial use. A large field awaits the use of the Chestnut for marketing and hog feed. I've planted 300.

One man reported his 21, 13-year-old trees bearing 1,836 lbs. Want in on it?

A most marvelous opportunity awaits the planters of these blight resistant chestnuts. But remember. We're selling you lawn beauty and nuts or a good bank account in a commercial planting. Trees grow low-spready, with a tendency to crookedness. Don't buy if you prefer a straight clothes tree to future beauty and nuts.

	Each	Dozen	Hundred
1— 2 ft.....	\$1.10	\$11.00	\$ 80.00
2— 3 ft.....	1.25	12.50	90.00

GRAFTED VARIETIES OF CHESTNUTS

Don't stutter! Don't hesitate! Get your order placed for your share of these Sunny Ridge bearing trees. I mean the ones you order are bearing. Price in 25 lots, just above seedling price. That means Dr. Smith loses a dollar every time you buy a tree. This won't last long. Get in on the rush.

➤ **Abundance:**

One of the best for nuts and quality.

(Continued on next page)

Conn. Yankee:

One of the oldest well performing varieties. Stands 34° below zero.

The following three are the new U. S. Dept. of Agriculture introductions.

Kuling, Meiling, and Nanking.

	Each	Dozen	Hundred
3—4 feet.....	\$3.75	\$37.50	\$234.00
4—5 feet.....	4.00	40.00	267.00

2—3 ft.....	2.00
3—4 ft.....	2.50
4—5 ft.....	3.25
4—6 ft. heavy.....	4.00

Shagbark Hickory Hybrids

Hickoria Ovata X Cordiformis

These beautiful trees with their narrow columned head, stiff shiny small leaflets—plus their rapid growing makes them tops for avenues, lawn specimens or clumps. It seems a shame to see rows of maples planted when hybrid shagbarks are better.

These hybrids bear in 5-6 years and lots of good sized thin shelled nuts.

Fairbanks } These two old varieties need no introduction.
Stratford }

	Each	Dozen
5— 6 ft.....	\$4.50	\$45.00
6— 7 ft.....	4.75	47.50
7— 8 ft.....	5.00	50.00
8—10 ft.....	6.00	60.00
10—12 ft.....	7.00	

Hardy Northern Pecan—Bears 7 yrs.

H. Oliviformis

Marvelous for lawns, very ornamental, Bears in 5-7 years.

These varieties, selected over many years of observation as the best.

Greenriver, Busseron, plant two for pollination. Price below.

Hicans

A pecan X shellbark, cross

All hicans are beautiful shiny foliage. All have excellent flavored nuts. The first three listed are great large nuts—slow to bear—the last two bear 5-6 years.

Let us select the variety that is best for your locality.

Girardi, Bixby, Dad's Miracle, Burton, Wright.

Plant two varieties for pollination.

	Each	Dozen
3—4 ft.....	\$3.75	\$37.50
4—5 ft.....	4.00	40.00
5—6 ft.....	4.50	45.00

SUGAR MAPLE (Acer Saccharum.)

This remarkable crop tree, the source of the finest sugar and sirup in the world has been over-looked too long by forester and agricultural expert.

It is most beautiful, drought resistant and rapid growing. The only reason YOU haven't tapped your few trees is because it wasn't brought to your attention in our fast moving society.

Any size you wish just so you get started on your home sugar growing.

	Each	Dozen
4— 5 feet.....	\$1.50	\$15.00
5— 6 feet.....	1.75	17.50
6— 8 feet.....	2.50	25.00
8—10 feet.....	3.25	32.50
10—12 feet.....	4.00	

Honey Locust (Thornless) (My Introduction)

Gleditsia triacanthos inermis Sweet pods for cattle feed.

Bears 3-5 years. Famous for growth value.

The agricultural Experiment Station at Auburn, Alabama reports their 8 year trees bore, figured in oats value with 20 trees per acre equal 125 bushels per acre, plus a crop of hay or pasture without cost of annual field preparation, planting and harvesting. Mature trees will grow as much as 300 bushels of Oats food value per acre.

See Complete Food Analysis in 25¢ booklet.

A site better, read Smith's amazing report on them in "Tree Crops". It's listed on back page.

Millwood—This old variety needs no introduction.

Smith—More hardy for northern planting.

Schofer—Originating at Pennsburg, Pa. is 500 miles farther north than the home of other varieties. Hence it's possibilities in hardiness.

	Each	Dozen	Hundred
3— 4 ft.....	\$.150	\$15.00	\$125.00

7— 8 ft.....	3.00	30.00	
8—10 ft.....	3.25		

Wm. Penn Oaks—(My Introduction)

The most amazing thing about oaks is revealed in my selection work on Penn trees. We found a few trees who's seedlings grow more rapidly than sugar maple. It's amazing.

These are the "corn fields of the future." When man grows up to use what he has, he'll **Oak** a mountain ridge, a hill-side, a rocky knoll.

According to production figures of bearing oaks a low of 274 bus. of corn per acre in hog food value can be grown on mts. and steep slopes. You can start YOUR future tax reduction by planting NOW?

Many people insist on a Black, Pin or Red Oak. The WHITE is JUST as beautiful in the autumn with the addition of—the BEST oak timber and the BEST acorn for feeding poultry and hogs.

THE BURR stands out as a brunette in the landscape, dark, heavy large leaved, deep green foliage. Another attraction is their remarkably rapid growth AND corky bark on branches. Timber good, acorns large and sweet.

TURKEY—odd, holly leafed, very ornamental.

White Oak (Quercus Alba)

Whips root pruned. These grow faster than maples.

Think I can spare you a few hundred. But order early.

	Each	Dozen
1—2 ft.....		\$ 6.00

→ **Persimmon** *Diospyros Virginiana* all grafted

Excellent selections of the American species.

→ **Josephine**, ripens fruit after the middle of September. Sweet, delicious, yellow.

→ **Early Golden**, comes in a few days later, slightly larger, yellow.

→ **Buhrman**, large, late, solid flesh, color a dark marroon with purple bloom. Don't plant north of southern Penna.

→ **Garrettson**, Fruit small, one of the sweetest you ever ate. The best for the extreme north. Hardy and ripens well in the Finger Lake region.

→ **Kitch**, ripe December 1st, small but delicious. This is the prune of the persimmon world. Dries on tree. So high in sugar content you can see the crystals when you break the flesh. Hangs all winter, slowly dropping to the middle of March. Greatest game food you ever saw.

→ **Male** variety—if your persimmons don't bear or if you are planting out of the persimmon range a Pappa will make it bear.

Bears 3-5 years.

	Each	Dozen	Hundred
3— 4 feet.....	\$2.25	\$22.50	\$130.00

Pears—Blight Resistant, Budded.

Here's a family selection.

MAXINE—Resembles Bartlett—excellent. I've never hooped up this variety too much because, altho knowing it is good, couldn't prove it. Today customers of our local orchard men and others prefer it to the Bartlett. We have a limited supply this year.

WORTON SECKEL—about three-fourths size of Bartlett, flavor Seckel.

DUCHESS—A delightfully fall pear.

NOTE—Maxine sold only at the each rate. Supply limited.

	Each	Dozen
3—5 ft. one yr. whips.....	\$1.50	\$15.00
5—6 feet.....	2.00	20.00
6—7 feet.....	2.25	22.50
7—8 feet.....	2.50	25.00

Mulberry Morus—Grafted.

This mulberry business got me down. Intoxicated with my preaching I thot I'd sell plenty, instead I pulled them out. Now my preaching "cross fired" with reduced production and we're sold out. Place your order, if sold out will hold 'till another year.

Downing black. One of the old Standbys.

Hicks—This is the Queen of Mulberries for flavor. Bears 3 months. Hardy as far north as Southern Penna. west.

REICHERT—A new hardy everbearing from S.E. Penna. Fruit about same as Hicks but tree more hardy.

	Each
4— 6 feet, one yr.....	\$3.00
7—10 feet, 2 yr. strong.....	5.00
Just a few extra heavy.....	7.50

Golden Weeping Willow

The most hardy, the most beautiful of all weeping willows. For fish feed set by the pond and stream. Their insect pests are great fish food. Try them.

	Each	Dozen
3— 5 feet.....	\$1.00	\$10.00
5— 7 feet.....	2.00	20.00

BLUEBERRIES BLUEBERRIES

(*Vaccinium Corymbosum*)

HIGH BUSH

Home Grown Blueberries As You Like Them

FAMILY REQUIREMENTS: Six for two. Double the number for the birds, and children.

DISTANCE TO PLANT: five to six feet apart on row. Rows ten feet apart. How many can you use? Six sold at the doz. rate.

CULTURAL CARE: Remember they **must** have light soil and a heavy mulch. If weeds come through pull them.

See our booklet for cultural care—25¢

PLANTING: It's a good thing to mix the soil 50-50. Peat-leaf mold—and sawdust.

Heavy bearing, Cohansey, Concord, Jersey, Stanley and Rancocas, 5 yr. plants, transplanted. They're lifted with a nice ball. Don't know they're moved. Just keep on bearing.

10% off loaded on your truck.

	Each	Dozen
